

Principal biography

Inspiring
Business
Excellence

William G. Mackie

Bill Mackie joined Oliver Wight Americas in 1978. He is a past president and currently a managing principal of Oliver Wight Americas, and is a past president and current member of the board of Oliver Wight International, the governing board for all worldwide divisions of Oliver Wight.

Bill has worked with high-level executives in companies such as Ivax Pharmaceuticals, Research in Motion, Talecris Biotherapeutics, Parmalat, Gen-Probe, Barber Foods, and Select Comfort, among others, over his 28-year career with Oliver Wight. His manufacturing industry experience includes process companies, electronics manufacturers, and consumer goods. Bill has experience instructing private courses on topics such as Sales & Operations Planning, Demand Management, Executive Management, and Enterprise Resource Planning.

internationally supporting them on change/process improvement projects in the areas of Sales & Operations Planning, forecasting and demand management, and supply initiatives such as master production scheduling and data integrity. Bill is currently providing critical guidance to two companies pursuing Class A business excellence. He is committed to helping organizations achieve operational excellence through strategic guidance in planning and control and change management.

Bill earned his BS in Economics from the University of Massachusetts.

As both a consultant and educator, he has worked with companies domestically and
