2020 Course Schedule

Oliver Wight has a long-standing reputation for innovation and thought leadership. We continually challenge the industry status quo and invest in our own learning, so you get the latest in fresh thinking around core business processes and their integration with people and technology.

Our approach is quite different from other consulting firms. Change isn't something we do to you or for you. Instead, we transfer our knowledge to you and your people through coaching, mentoring, and education workshops, so you learn how to make improvements yourself and continue to do so long after we have gone.

We see ourselves as your guides, coaching you and your people as you implement new processes and behaviors in your organization. Our role is to inspire, educate, facilitate, and mentor, providing insight and recognition for your achievements along the way. We'll give you honest feedback, encouragement, and recommendations to make sure you keep on track to reach your goals.
