An ambition that became reality

A pioneer of planning processes, our founder **Oliver Wight** was recognized worldwide as an innovator, helping organizations increase productivity, improve inventory turnover, and customer responsiveness. Ollie's personal mission was to reposition people as a vital part of any business and educate them so they can unlock the power of new processes and tools.

So, what makes us different?

Change isn't something we do to you or for you. Instead, we transfer our knowledge to you and your people through coaching, mentoring, and education, so you learn how to make improvements yourself and continue to do so after we have gone.

We don't deal in theory

Prior to joining Oliver Wight, every Oliver Wight Specialist played a major role in improving business performance through successful transformation projects, holding senior positions in well-known companies across diverse industries, countries, and cultures.

A reputation for innovation and thought leadership

We continually challenge the industry status quo and invest in our own learning, so you get the latest in fresh thinking around core business processes and their integration with people and technology.
